

2017 Street Sweeping Program

The following calendar shows each refuse zone being swept two (2) days after garbage pickup. Each route should be completed approximately once every three (3) weeks. The City of Toledo holiday weeks and the week following the Fourth of July will be used as calamity weeks.

Please check the Map to find your assigned sweeping route. Routes Y2 and G3 may be used in a pilot program. If instituted, new signage will be placed on the streets along those routes indicating parking restrictions.
