

**BANCROFT STREET RECONSTRUCTION PROJECT
NEIGHBORHOOD PUBLIC MEETING #3
NOVEMBER 20, 2013
COLLINGWOOD PRESBYTERIAN CHURCH**

AGENDA

6:00 – 6:10 Welcome and Review Current Status of Design Efforts

Overview of general design process and current status

Hand outs – Process flow chart

Dave D convene – Dave or John C. presents.

Goal: for attendees to understand a bit about the design process and steps involved. Acknowledge DRT and their efforts. Help attendees understand what is and is not part of the discussion tonight – conceptual alternatives do not include details such as type of trees – street light fixtures – sidewalk materials - neighborhood look – bus stop details, etc. – all come later.

6:10 – 6:20 Design Principles for Bancroft Street, Evaluation of Alternatives, and general cross section of recommended alternative

Review of agreed upon principles and their use in reaching a recommendation. Highlight the general cross section for the design.

Jack Patrick presents.

Goal: for attendees to see the design principles used by the team and describe generally how they were used in a matrix to assist in reviewing the three alternatives from last meeting (and two new ones the team came up with as a result of input at last meeting). Present the “with” and “without” parking sketches from Ken about width of lanes, bike lane, etc.

6:20 – 6:40 Presentation of Recommended Alternative

Overview of lane layout, bike facilities, parking and sidewalk configurations for each section of Bancroft Street

Ken Schumaker presents.

Goal: to review, block by block or section by section (Ken’s call on what is best for clarity) for attendees to see the recommended concept design. Present the lane configuration, bike lane, curb and parking recommendations.

6:40-6:45 Next Steps and Adjourn to Open House

The team will continue working with staff through detailed design and hold another public meeting next spring.

Dave Dysard presents.

Goal: to alert attendees to next meeting (Spring 2014) and detail decisions yet to come. Encourage attendees to interact with team members and leave comments for team consideration. (If time permits may see if there are questions of understanding but do want to allow lots of time for interaction between attendees and team members.)

6:45-7:20 Open House

Design Review Team members and staff will be at three separate display areas. Each area will have a copy of the recommended alternative. Attendees will be encouraged to ask questions, discuss ideas and comments and record their thoughts and comments on post-it notes or index cards for consideration by the team.

DRT and Staff team members “man” the three boards with the concept drawings to answer questions, encourage and help with post-it notes – **PLEASE MAKE SURE THEY ARE LEGIBLE AND UNDERSTANDABLE** when not attached to the graphics, etc.

7:20 Adjourn Public Meeting

*** SECTION 106 DESIGN CONSULTATION MEETING ***

7:30-8:00 Overview of Section 106 historic district concerns

Discuss specific concerns related to historic district context and design

Section 106 Consulting Parties will be encouraged to stay and participate in a discussion of the recommendation, comments heard and any potential concerns or ideas from the perspective of the historic district context.
