

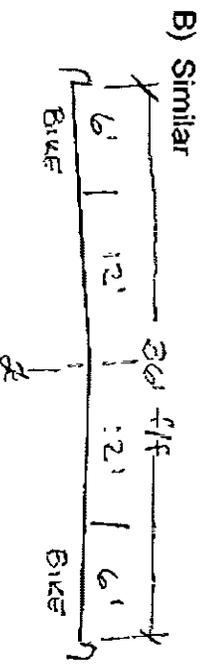

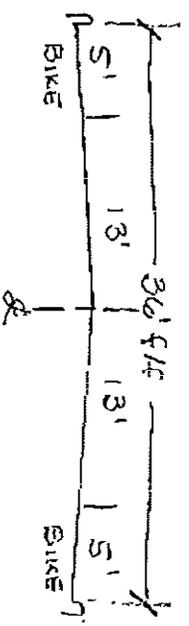

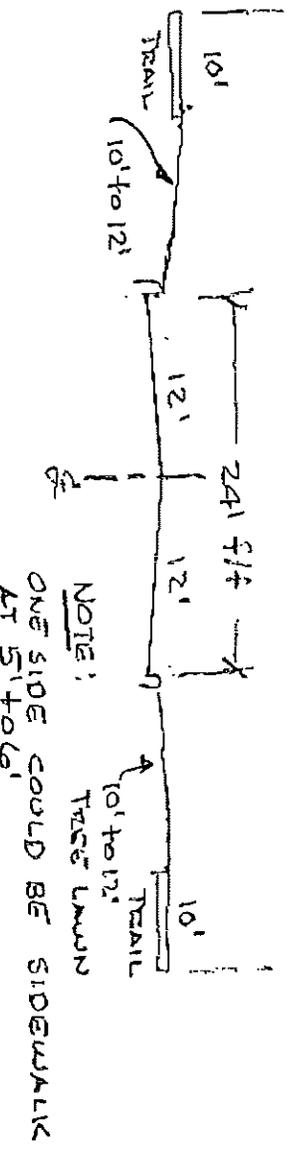

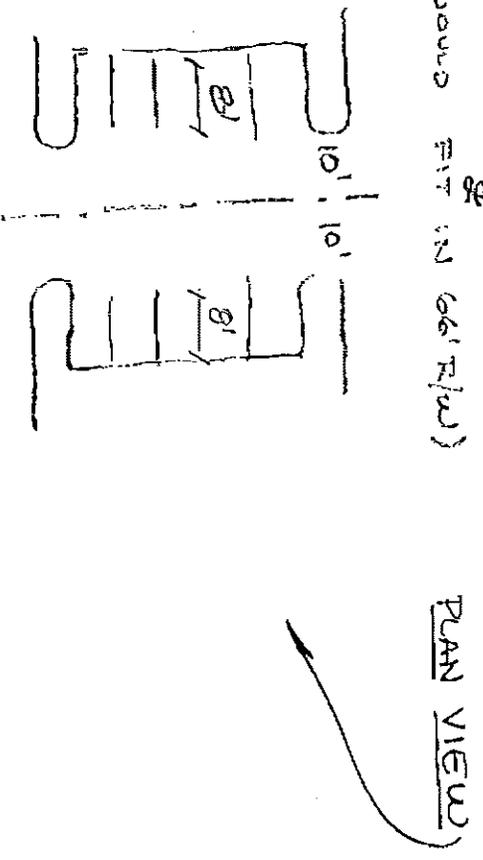

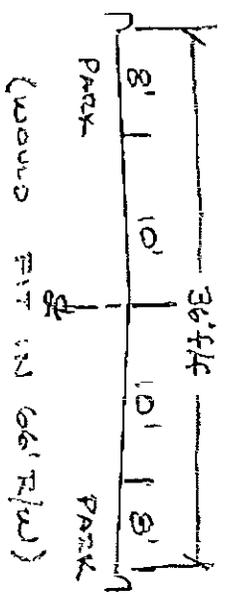

EXHIBIT I A) Bikes in pavement/no parking/keep existing tree lawn with 5' to 6' sidewalk

C) Bikes off pavement/no parking/tree lawn 10' to 12' with 10' trail

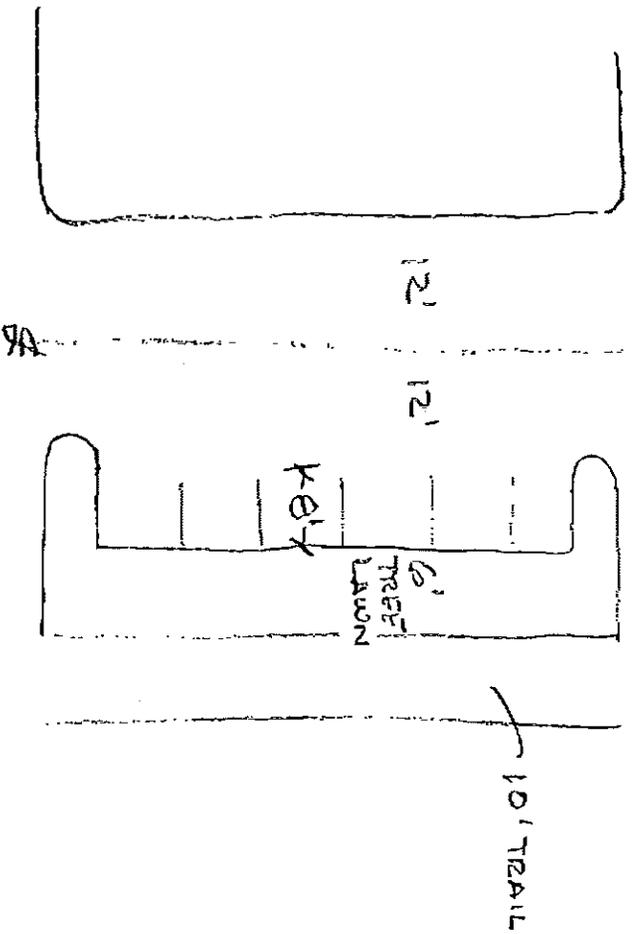

D) No bikes in pavement/parking both sides

E) Parking on north side, reduce tree lawn from 10' to 6'

PLAN VIEW

F) Not sketched, but suggested by a participant

1. Two 13' lanes = 26' with parking on north of 8' = 34' between curbs
2. Allow two 10' tree lawns = 20' + 10' trail on one side and 6' walk on other = 36'
3. Total = 34' + 36' = 70'
