I am:

Do you have 12 months of billing history at the address?

Eligibility Criteria

☐ I understand that once a year there will be an account "true up." If my yearly water use is higher than the estimate, I will owe the difference in those totals. If my yearly water use is lower than the estimate, I will receive a bill credit to be applied towards future bills. My budget bill amount may also change from year to year, based on the prior 12 months of water use and current water and sewer rates.
