2019 Water Volume Rates Per 100 cubic feet (ccf) = 748 gallons

First 100 ccf/month or 300 ccf/quarter	\$2.493 per ccf
Next 1,500 ccf/month or 4,500 ccf/quarter	\$2.423 per ccf
Next 10,000 ccf/month or 30,000 ccf/quarter	\$1.903 per ccf
Over 11,600 ccf/month or 34,800 ccf/quarter	\$1.388 per ccf

Water Rate Information: Customers are billed a minimum rate for water per month or quarter based on meter size as shown in the top chart. Additional water is billed at the volume charges above. (Customers using less than the minimum rate do not pay volume charges.) Most customers within Toledo city limits have 5/8" water meters and receive bills on a quarterly basis. Toledo 2019 water rates are the same as in 2018.

2019 Senior/Disabled Homeowner Discount Programs

A 25% discount is provided on water, sewer and storm rates, regardless of income, for the primary single-family, owner-occupied residence of Toledo homeowners or spouses who are 65 or older, or who are totally disabled. Low income residents eligible for the 25% utility discount may qualify for an additional 15% reduction in water rates based on income and household size. 2019 Sewer Volume Rates Per 100 cubic feet (ccf) = 748 gallons

Residential/Commercial.....	\$5.028 per ccf
Industrial.....	\$5.430 per ccf

Sewer Rate Information: Sewer charges include a fixed rate based on meter size, plus volume, based on water that has passed through the meter. "Winter averaging" can reduce sewer volume charges. Normal household water usage measured over the winter billing period is used as a basis for summer sewer billing so that customers are not charged for wastewater treatment services for water used in the summer.

2019 Storm Water Fixed Rate

Single family and residential duplex properties are considered as one Equivalent Residential Unit (ERU) and pay an average storm water charge of \$3.80 per month. Commercial and industrial customers are charged the same rate of \$3.80 per ERU per month, based on total exterior impervious surface area in square feet divided by 2500. "Impervious" means areas that have been paved and/or covered with buildings or materials that do not allow natural water infiltration, such as concrete, asphalt, rooftop, blacktop, etc.
