## What Happened in the Toledo City Council Agenda Review Meeting of 2-4-20

### COUNCILMAN JOHNSON PRESENTS:

R-018-20 Recognize Weldon Douthitt.

**My Position: Support.**

### COUNCILMAN DELANEY PRESENTS:

TMP-4840 Recognize Toledo Police Officers Balon and Rausch.

**My Position: Support.**

### SECOND READING ITEMS:

O-002-20 Amending the Toledo Municipal Code by enacting a new Chapter 1312, Registration of Persons, Firms or Corporations in the General Contracting and Interiors Industry.

**My Position: Held Pending Final Input From The Sponsor.**

**Two hearings were held and numerous discussions have taken place during scheduled meetings of City Council on the ordinance. Several emails and letters for and against this proposed law have been received. Misinformation and misunderstandings abound. Find truth and clarity for all who will be impacted are imperatives being sought prior to action being taken. The goal of the legislation is to ensure that only trained and qualified employees are hired by contractors doing construction in the general contracting and interiors industry. Additionally, there does not appear to be any real adverse effects on minority contractors.**

O-031-20 Authorizing the mayor to execute an agreement establishing the Lucas County 911 Regional Council of Government to organize and operate a Public Safety Answering Point.

**My Position: Support.**

**This merger and consolidation will put all political subdivisions into one 911 operation.**

O-037-20 Authorizing the appropriation and expenditure of \$1,225,000 from the Capital Improvement Fund for the repair, reconstruction and professional design services of Levis Square Park (Phase 2); authorizing the mayor to accept bids and award contracts necessary to complete said project(s).

**My Position: Support.**

**Reconstruction of Levis Square Park is necessary and underway. Phase 2 involves utility connections, drainage structures and planting beds, etc. which need to be brought up to current standards. The park has suffered decline since its construction in the 1970's.**

O-039-20 Approving the proposal of Niki Toledo for the expansion of their retail establishment within the Toledo Enterprise Zone; making certain findings and determinations in connection therewith; approving and authorizing the execution of an agreement and other documents, which grant real property tax exemptions.

**My Position: Support.**

**Considerable debate has taken place over the necessity of granting property tax exemption for this redevelopment of the former Elder Beerman property. Washington Local Schools have already approved it on January 15, 2020. The City of Toledo will receive \$41,000 per year in return on investment in new income tax revenue. The total abatement over 15 years is \$978,000. Without the abatement the project will not be done and the property will continue sitting vacant. This is the same deal that Westgate was given when Costco was built. Although I am philosophically opposed to tax abatement, it has merit from a business standpoint, but should be monitored carefully. Unfortunately, the precedent for this area has been set, avoiding top abatement agreements like this in the future should be a goal.**

O-040-20 Authorizing the mayor to enter, execute and deliver a Purchase Agreement and other needed instruments for the sale and conveyance of 11.89 acres in the southern portion of Willy's Park for \$75,000 to the Woodlawn Cemetery Historical Association. Inc.; authorizing the deposit of net sale proceeds; making certain findings with respect thereto; waiving the notice and competitive bidding provisions of T.M.C. 187.19 the sale and conveyance of 11.89 acres in the southern portion of Willy's Park for \$75,000 to the Woodlawn Cemetery Historical Association. Inc.; authorizing the deposit of net sale proceeds; making certain findings with respect thereto; waiving the notice and competitive bidding provisions of T.M.C. 187.19.

**My Position: Support.**

**There is an effort underfoot to earmark this money specifically for Willys Park maintenance. The sale itself is for waterbodies restoration that will improve water quality and enhance wildlife habitat in the Ottawa Park watershed. This acreage will not be used for burials.**

O-042-20 Authorizing customer work agreements with The Toledo Edison Company providing for the replacement of existing streetlights throughout the city with LED streetlights.

**My Position: Support.**

**Debate about the level of intensity of the lumens (brightness glow and light pollutions due to the blue light waves emitted) per watt has arisen. The concern is for any disruption that may occur in the circadian rhythm (the internal process that regulates the sleep-wake cycle and repeats every 24 hours) of humans. It will not impact the cost (\$5,796,000) of the 28,000 streetlights we will need regardless of whether we have a higher or lower brightness to the LED lights that are installed. A 3000K LED lighting is considered energy efficient and economically viable. Kelvin lighting higher than 3000K is believed to produce harsh glare at night and can also suppress melatonin production. Nocturnal wildlife, birds, insects and fish are disturbed by excessive outdoor lighting. Also, sky glow would be reduced and nightscapes improved with shielding.**

**COUNCILMAN LUDEMAN PRESENTS:**

TMP-4849 Urging the Federal Communications Commission to move as rapidly as possible to implement the 988, three digit Suicide Hotline.

**My Position: Support.**

**It was stated by the sponsor that we should probably follow this problem more closely than the coronavirus.**

**COUNCILMAN RILEY PRESENTS:**

**My Position: Support.**

**This effort will maintain the creek by supporting Woodlawn Cemetery's application for money from the Clean Ohio Green Space Conservation Program.**

TMP-4854 Authorizing the appropriation of \$75,000 from the unappropriated balance of the General Fund and operating transfer of same into the Capital Improvement Fund; authorizing the appropriation and expenditure of an amount not to exceed \$75,000 from the Capital Improvement Fund for improvements at Willys Park; authorizing the Mayor to accept bids and award contracts necessary to complete said project.

**My Position: Support.**

**This action actually moves the money from the general fund to the CIP for the explicit purpose of using it to improve Willys Park.**

TMP-4856 Declaring it necessary to improve a portion of the Hill Avenue by upgrading existing street lights with additional street lights poles and LED lamps.

**My Position: Support.**

**The portion of Hill Avenue between Byrne and Reynolds Road is extremely dark at night until dawn. This has created an extremely hazardous situation for decades, especially for anyone walking across the street, most notably, children on their way to school. This will address street lighting concerns from Byrne to the west city limits by adding poles and LED luminaries.**

The compensation rates for full time and part time advanced Life Support Life Squads are \$201,099.03 and \$125,686.89 respectively, per quarter. **My Position: Support.**

**The need for soil cleanup and remediation of residual oil was found necessary during the installation of a new water main. The abandoned lines in the York Street rights-of-way were removed and capped.**

7. TMP-4842 Authorizing the appropriation and expenditure of \$5,000,000 from the unappropriated balance of the Water Replacement Fund for the 2020 Water Main Program; authorizing the mayor to prepare plans and specifications, acquire rights-of-way and easements as appropriate, accept bids and enter into contracts after due advertising for the design and construction of water mains.
